THE PAPER TRIP III

The need for new identity has never been greater. Big Brother now works with hundreds of privately-owned data-bases that track and control millions of names in their files, specifically, yours!

Our solution to these emerging problems is **The Paper Trip III**, your guide to dealing with Big Brother and living the life you really want. The solution is creating an Alternate Identity. **The Paper Trip III** reveals all the many helpful ways alternate identity can help you:

- **Avoid problems of negative records.**
- **Become "invisible" to investigators.**
- **Create personal low-profile privacy.**
- **Reduce what others know about you.**
- **Begin a new life with new friends.**

The Paper Trip III explores alternate identity and how it can work for you. Begin to enjoy greater privacy, security, even a new life! Discover how to obtain an original birth certificate with new name and age from Vital Records.

- **Use ID to compartmentalize your life.**
- **Become "invisible" to databases.**
- **How Vital Records offices work.**
- **Use 3 levels of ID for mail and phone.**
- **Avoid criminal records problems.**
- **Protect yourself from identity theft.**

Learn to live with your new ID in terms of jobs, auto, banking, assets, travel, insurance, relationships, travel, etc.

- **Get a new SSN legally from SSA.**
- **Create alternate SSNs if needed.**
- **Make your SSN "untraceable."**
- **U.S. passport problems & solutions.**
- **Advantages of foreign passports.**
- **Do-it-yourself ID. Quick "back-up" ID.**

THE PAPER TRIP 4
The Ultimate Guide to New Identity since "9/11"

In reaction to 9/11 Congress passed the Real ID Act to establish "Secure ID" with federal standards that the states must now follow. The feds figured that if a group of True Believers could reshape the sky-line of Manhattan with just box cutters and state-issued ID, then the solution would be federally mandated "Secure ID" for innocent Americans to board an airplane or enter a government building.

Sadly, many Americans see no harm in accepting "Secure ID." They are blind, however, to the dangers in computerized identity records that can ultimately be used for surveillance and possibly worse. Let's not forget that the Nazis achieved very "efficient" social control by simply demanding, "Your papers, please!" long before computers!

THE PAPER TRIP 4 shows how to take advantage of the Real ID Act to create your own new identity. You will be able to get "No-Questions-Asked" ID in another name, and no one will challenge it because it will pass as "Secure ID." You will succeed by having all the most important information and resources available to you in full detail:

The "Real ID" Act—what it's all about, and what it means for changing identity.

All the best methods for creating a new identity—pros and cons.

Requirements for getting government-issued birth certificates in all 50 states.

Requirements for getting new driver's licenses and non driver ID in all 50 states.

Current US Passport application requirements and instructions.

New system for issuing Social Security numbers.

How to get a new Social Security number.

How to change your Social Security number.

Identity theft—issues, dangers, solutions.

How to create new credit with "Secure ID."

BONUS CHAPTER: Here's a fast and easy way to create a new identity that has never appeared in any of our books. Full details enable you to "disappear" from an old identity, and obtain even MORE new credit. Don't miss this quick and effective way to create a new identity. Worth the price of the book alone!
